RECEIPT AND ACKNOWLEDGMENT BY PROSPECTIVE BUYER

The undersigned Prospective Buyer acknowledges receipt of this Disclosure Statement prior to signing a Contract of Sale pertaining to this Property. Prospective Buyer acknowledges that this Disclosure Statement is not a warranty by Seller and that it is Prospective Buyer's responsibility to satisfy himself or herself as to the condition of the Property. Prospective Buyer acknowledges that the Property may be inspected by qualified professionals, at Prospective Buyer's expense, to determine the actual condition of the Property. Prospective Buyer further acknowledges that this form is intended to provide information relating to the condition of the land, structures, major systems and amenities, if any, included in the sale. This form does not address local conditions which may affect a purchaser's use and enjoyment of the property such as noise, odors, traffic volume, etc. Prospective Buyer acknowledges that they may independently investigate such local conditions before entering into a binding contract to purchase the property. Prospective Buyer acknowledges that he or she understands that the visual inspection performed by the Seller's real estate broker/broker-salesperson/salesperson does not constitute a professional home inspection as performed by a licensed home inspector.

This notice is provided to you by an organization or individual certified by NJDEP to perform radon gas or radon progeny testing measurements. NJSA 26-2D-73 requires that no certified person disclose to anyone except the DEP or the Dept. of Health the address or owners of a nonpublic building that the person has tested or treated for the presence of radon gas or radon progeny, unless the owner of the building waives in writing this right of confidentiality. In the case of a prospective sale of a building that has been tested for radon gas or progeny, the seller shall provide the buyer, at the time the contract of sales is entered into, with a copy of the results of that test and evidence of any subsequent mitigation or treatment. Any prospective buyer who contracts for the testing shall have the right to receive the results of that testing. Any questions, comments or complains regarding the person performing these measurements, or related mitigation, or safeguarding services, should be directed to the NJDEP, Attn: Radon Section, Bureau of Environmental Radiation, at 1-800-648-0394.

LIMITATION OF LIABILITY: While we at Radiation Data, and all of our licensed professional technicians, make every effort to maintain quality control (including duplicate canister tests, blanks, and "spiked" detectors), we make no warranty of any kind, either express or implied, for the consequences of false test results. Before any remediation action is taken, it is important that follow-up tests be conducted in accordance with USEPA protocols and NJDEP regulations. It is well know that radon concentrations fluctuate greatly under changing weather conditions. Furthermore, radon tests cannot be CERTIFIED, since there is no chain of custody of the test kit, and the "closed-house" conditions cannot be monitored continuously.
